

# Make Style

D.I.Y DESIGNER LIVING

---

Righto. So you've just nailed the Make it part of Make and Style It. Feeling pumped? You should be!

But creating a beautiful kids' space is one thing. Being able to afford to do it is another entirely. And even if you've got buckets of money (if you do, can we be friends?), you may still be struggling with the styling part.

With that in mind, I'll share a few things you can add to those amazing shelves you Make with Bear and Sparrow, without having to sell a kidney to get them\*

\*kidney selling optional and not encouraged.

**Single Stem hydrangea \$3 -Kmart**

Lay it flat on a shelf for the ultimate in beautiful simplicity. You could even chop the stem off and stick it in a little jar, or the pen cup you'll see a little further down.

**LED Twinkle Lights \$5 - Kmart**

Drape them over the top, or wrap them around the shelves. Or bunch them up in a clear jar for a fairy look!

**Wooden Handle Skipping Rope \$3 - Kmart**

It's a toy, it's a rope.... Well yes, but it's also décor. Hang in next to your shelf on a hook, or lay in on a table underneath

**Moss Bunny \$8 - Kmart**

I love a bit of green. I also love a bunny. So a green mossy bunny had to be included. Sit him on a shelf, or underneath it on a side table. He'd look cute next to a little jar 😊

**Chalkboard round \$8 - Kmart**

This guy is about the same size as the shelves, so you could place it diagonally next to it with some cute little words written on it. Or a picture if you can draw (and even if you can't)

**Small Matt Bowl \$2 - Kmart**

Fill it with hairclips, or leave it empty. It looks pretty either way! Soap dishes make great little bowls too, so don't forget to look in other sections

**Flag: Bigger than the Moon \$7 - Kmart**

This is a pretty decent size – it's 88x59cm so would make a great offset for a large circle shelf. Keep the décor simple on the shelf and make the shelf and the flag the statement pieces.

**Pen cup black \$4.97 - Officeworks**

A simple cup like this makes a great little vase or faux plant holder. Crayons, pencils or even a cute little favourite toy poking out.

**Large Gauze Silver Butterfly \$3.99 -Spotlight**

This would look super cute perched up on top of one of the shelves!! Or hang it with a bit of fishing line, for a 3D effect.

**Gold spot stickers \$5 - Kmart**

Don't be neat and tidy with these – cluster them up like little pieces of glitter around your shelf! Kind of like the image here!

**Silver Bunting Flags \$3- Kmart**

Bunting our old friend! Silver – even better. Goes great for boys or girls spaces. Imagine it loosely hanging next to your moon.....

**Pink or White Succulent \$7- Kmart**

Green again – yep. Break it up with one of these little succulents. If it doesn't fit on your shelf, use it on a side table or table near by.

**Wooden Family \$10 -Kmart**

Nawwww the cutest little family. Line them up in family order, or pop them in pairs on different shelves. Be creative! They could even sit in the small matt bowl.

**Woodland Birdie \$10 -Target**

Cute as cute comes, this little birdie is a nice gender neutral piece. Raw pine goes well with the monochrome or the white/pine shelves so whatever shelf you get, you can use it.

**Yeah Word Art Target \$7 -Target**

Yeah, words are in right now. Once again, if you can't fit it on your shelf, use adhesive hooks to stick it up next to your new shelf!

**Owl Woodland Decoration \$5.95 -Spotlight**

Another perfect fit for the moon theme. He'd be cute sitting next to the hanging star, don't you think?

**Star Wand \$7.99 – Spotlight**

Rest this little wand up on its side, or lean it against something small. It adds a bit of wonderment, and you could even paint it or use glitter to personalise. Or add an initial!

**Cage String light \$15 – Kmart**

I'd love to see one of these lights hanging low next to the moon, like a street light in the moonlight! This would look amazing next to a bed, with the shelf nearby.

**Wooden Tea Set \$15 – Kmart**

Tea for two? Even if you don't use the tray, the little teapot and cups would look cute on a shelf. Or put it all below the shelf, on a table or drawers

**Cube Deco Object 9cm \$7.39 -Freedom**

Nothing like a bit of shape to add interest. Gold adds glamour, and then you get to put it in your room when you're done. Winning!
